BRAND INTEGRATION IDEATION CHALLENGE

Campus Brand Activation Plan for Three Brands

Prepared: October 2026

Introduction

Brand integration is a marketing strategy that connects a brand with its target audience through interactive experiences, social media campaigns and community activities.

College campuses are excellent places for brand activation because they bring together young consumers who are interested in technology, food, entertainment and new experiences.

This report presents activation plans for three brands: **Red Bull, Samsung and Zomato**. Each plan includes an on-ground activation, a social media activation, an audience engagement activity and a campus-specific campaign strategy.

---

1. BRAND: RED BULL

Campaign Name: "Fuel Your Campus Energy"

Brand Category: Energy Drinks and Lifestyle
Target Audience: College students, sports enthusiasts and young adults

A. On-Ground Activation — Campus Energy Zone

A dedicated Red Bull Energy Zone would be set up during the college festival.

Activities:

- Create a branded booth with attractive displays.
- Organize mini gaming competitions and quick physical challenges.
- Provide a photo booth where students can capture their festival memories.
- Display Red Bull branding around the activation area.
- Distribute approved promotional merchandise.

The activity should follow campus policies, applicable age restrictions and responsible marketing guidelines.

Objective: Increase brand awareness by creating a memorable experience for students.

B. Social Media Activation — #CampusEnergyChallenge

Students would be encouraged to create short videos showing their talents, hobbies or favourite campus moments.

Execution:

1. Launch the challenge on Instagram.
2. Publish a short promotional video explaining participation rules.
3. Encourage students to post creative reels using the campaign hashtag.
4. Feature selected entries on the college event's official social media page.
5. Recognize the most creative entries with approved prizes.

Objective: Increase online engagement and encourage students to create and share campaign content.

C. Audience Engagement — Beat the Clock Challenge

A quick challenge zone would allow students to participate in activities such as reaction-time games, puzzles and simple skill challenges.

Execution:

- Students register at the activation booth.
- Each participant completes a short challenge.
- Scores are displayed on a leaderboard.
- Winners receive approved merchandise or certificates.

Objective: Encourage direct participation and create excitement around the brand.

D. Campus-Specific Campaign Plan

The campaign would be integrated into the college festival, sports events and student club activities.

Implementation:

- Collaborate with the college's event committee.
- Partner with gaming, sports and cultural clubs.

- Promote the activation through campus posters and official social media accounts.
- Appoint trained student volunteers to coordinate activities.
- Measure attendance, participation and social media engagement.

Expected Outcome: Stronger brand recognition, increased student interaction and positive associations with campus experiences.

---

2. BRAND: SAMSUNG

Campaign Name: "Create Your Future with Samsung"

Brand Category: Consumer Electronics and Technology
Target Audience: Technology enthusiasts, college students and young creators

A. On-Ground Activation — Samsung Innovation Lab

A temporary Samsung Innovation Lab would be created during the college's technical festival.

Activities:

- Display selected Samsung smartphones, tablets or other approved devices.
- Demonstrate relevant camera, productivity and AI features.
- Organize a technology showcase for students.
- Invite participants to explore practical applications of digital technology.
- Provide demonstrations led by trained representatives.

Objective: Help students experience Samsung technology directly and understand its practical applications.

B. Social Media Activation — #SamsungCampusCreators

Students would be invited to create original digital content using their own devices or approved demonstration devices.

Content ideas:

- Short campus photography videos.
- Creative student-life reels.

- Technology-themed photo stories.
- Short videos presenting innovative ideas.

Execution:

1. Announce the challenge through official campus social media channels.
2. Publish participation guidelines and the campaign hashtag.
3. Encourage students to submit original content.
4. Feature selected entries with the creators' permission.
5. Award suitable prizes to selected participants.

Objective: Encourage creative participation and increase digital visibility.

C. Audience Engagement — Tech Quiz and Innovation Challenge

Samsung could support an interactive technology quiz during the college festival.

Possible topics:

- Artificial intelligence.
- Smartphone technology.
- Digital creativity.
- Consumer electronics.
- Future technology trends.

Execution:

- Students participate individually or in teams.
- Questions are presented in multiple rounds.
- Finalists compete in a short innovation challenge.
- Winners receive approved prizes or recognition.

Objective: Connect Samsung with learning, creativity and technological curiosity.

D. Campus-Specific Campaign Plan

The campaign would focus on technical festivals, coding clubs, photography clubs and student innovation groups.

Implementation:

- Coordinate with the college's technical committee.
- Collaborate with computer science and electronics departments.
- Promote the Innovation Lab before the event.
- Organize a technology demonstration session.
- Collect voluntary participant feedback.

Expected Outcome: Greater awareness of Samsung products, hands-on technology exposure and stronger engagement with students interested in innovation.

---

3. BRAND: ZOMATO

Campaign Name: "Campus Cravings"

Brand Category: Food Ordering and Delivery
Target Audience: College students, food lovers and campus communities

A. On-Ground Activation — Campus Food Festival

Zomato could collaborate with participating food vendors to organize a food-themed activation during the college festival.

Activities:

- Create a designated food discovery area.
- Invite participating local food vendors.
- Display menus and prices clearly.
- Provide QR codes linking to approved restaurant or campaign pages.
- Offer promotional deals if agreed upon with participating partners.

Objective: Introduce students to food options while creating a lively campus experience.

B. Social Media Activation — #CampusCravings

Students would be encouraged to share their favourite campus food experiences.

Content ideas:

- Favourite food spots near college.
- Budget-friendly meal recommendations.

- Food reviews and ratings.
- Short videos featuring popular local dishes.

Execution:

1. Launch the campaign on Instagram.
2. Invite students to post food recommendations.
3. Encourage the use of the official campaign hashtag.
4. Feature selected posts with permission.
5. Share a digital campus food guide based on suitable student recommendations.

Objective: Generate user-created content and encourage food discovery.

C. Audience Engagement — Guess the Dish Challenge

An interactive food quiz would be organized at the college festival.

Activities:

- Display pictures of popular dishes.
- Ask participants to guess the dish or cuisine.
- Conduct a quick food-trivia round.
- Award approved vouchers or merchandise to winners.
- Invite students to vote for their favourite food categories.

Objective: Create a fun experience that connects the brand with food discovery and student preferences.

D. Campus-Specific Campaign Plan

The campaign would connect with cultural festivals, student gatherings and local food businesses near the college.

Implementation:

- Partner with the college event committee.
- Coordinate with interested local food vendors.
- Promote participating vendors through approved campaign materials.

- Share student food recommendations through official channels.
- Measure participation, engagement and voluntary feedback.

Expected Outcome: Increased awareness of food discovery options, stronger engagement with students and opportunities for local food businesses to reach campus audiences.

---

4. COMPARATIVE ANALYSIS

Element	Red Bull	Samsung	Zomato
Campaign Name	Fuel Your Campus Energy	Create Your Future with Samsung	Campus Cravings
On-Ground Activation	Campus Energy Zone	Samsung Innovation Lab	Campus Food Festival
Social Media Activation	#CampusEnergyChallenge	#SamsungCampusCreators	#CampusCravings
Audience Engagement	Beat the Clock Challenge	Tech Quiz and Innovation Challenge	Guess the Dish Challenge
Main Objective	Brand awareness and participation	Technology discovery and engagement	Food discovery and engagement
Best Campus Setting	Sports and cultural festivals	Technical festivals and innovation events	Cultural festivals and student gatherings

---

5. IMPLEMENTATION TIMELINE

Phase 1: Planning — 2 to 3 Weeks Before the Event

- Identify the target audience.
- Contact the brand's official marketing or partnership team.

- Prepare the activation proposal and estimated budget.
- Obtain college permissions.
- Confirm brand participation and deliverables.

Phase 2: Promotion — 1 Week Before the Event

- Publish promotional posts.
- Announce activities and participation rules.
- Coordinate with student clubs.
- Prepare the activation area and materials.

Phase 3: Event Execution

- Set up the approved brand activation area.
- Conduct interactive activities.
- Coordinate student volunteers.
- Capture content only with appropriate consent.
- Record attendance and participation.

Phase 4: Post-Event Evaluation

- Measure participation and campaign reach.
- Review social media engagement.
- Collect voluntary participant feedback.
- Prepare a report for the brand and college committee.
- Identify improvements for future activations.

---

6. SUCCESS MEASUREMENT

The success of each activation can be evaluated using the following metrics:

1. Participation: Number of students who participate in the activities.

2. Brand Reach: Number of people who see the campaign online or at the event.

3. Social Media Engagement: Likes, comments, shares, video views and campaign submissions.

4. Audience Feedback: Participant satisfaction and feedback about the activation.

5. Content Creation: Number of eligible student posts, photos and videos generated.

6. Brand Awareness: Changes in participants' awareness or understanding of the brand, measured through voluntary surveys.

The targets should be finalized with the brand and college committee before the campaign begins.

---

7. CONCLUSION

Brand integration can make college events more engaging while helping companies connect with young consumers.

Red Bull can create excitement through interactive challenges and campus activities. Samsung can provide hands-on technology experiences and innovation-based engagement. Zomato can connect students with food discovery and local vendors through interactive food experiences.

Each campaign combines a physical experience, a social media strategy, direct audience engagement and a campus-specific implementation plan.

The success of these campaigns will depend on audience relevance, effective execution, measurable objectives and collaboration between the brand and college organizers.

Note: These are proposed activation concepts, not confirmed partnerships or existing campaigns. All activities would require brand approval, college permission, appropriate budgeting and compliance with applicable policies.
